

CHEMSPEC®

Formula 429 FC

A water based anti-microbial with multi-surface broad spectrum kill and residual control.

Effective for micro control of Escherichia coli, Pseudomonas aeruginosa, Enterococcus hirae, Staphylococcus aureus, Listeria monocytogenes, Candida albicans, Salmonella typhimurium, MRSA, Acinetobacter baumannii, Influenza A H1N1, Human Rotavirus and Campylobacter jejuni.

FOR PROFESSIONAL USE ONLY

Use Biocides Safely • Approved For Use As A Disinfectant

Directions for Use Spraying:

1. Use neat, do not dilute (ready for use), using a pump up sprayer or foamer.
2. Spray all contaminated surfaces prior to handling.
3. Remove source contamination.
4. Clean all affected areas.
5. Spray all affected areas for broad spectrum kill and residual control.

Directions for Use Foaming:

1. Use neat, do not dilute (ready for use).
2. Follow spraying instructions 2, 3 & 4.
3. Apply foam evenly onto all contaminated areas to deliver extended dwell times and deeper penetration.

Directions for Use ULV Fogging:

1. Use neat, do not dilute (ready for use) in the Chemspec B and G ULV Fogger.
2. No rinsing required.

Standards Tested Against:

This formula has been tested to European Standards EN 1276 & EN 13697 against bacteria, EN1650 against yeast, EN1650 (40°C) against fungi, following EN 14476 against viruses and modified BSI PAS2424 residual test.

Active Ingredients:

N -(3-aminopropyl)-N-dodecylpropane-1, 3-diamine 0.2025g per 100g,
Polyhexamethylene Biguanide Hydrochloride 0.0475g per 100g.

Safety:

Avoid contact with eyes. If eye contact occurs, rinse well with cool water.

Read label before use.

MSDS reference: B2021L

Storage:

Keep containers upright. Store in tightly-closed, original container in a dry, cool and well-ventilated place.

Protect from freezing and direct sunlight.

Avoid contact with oxidising agents.

Do not store at temperatures exceeding 35°C. This packaging is recyclable.
